

Quality Access Doors- FAST!

SUBMITTAL/TECHNICAL DATA SHEET

DESCRIPTIONS

The access panel consists of a welded aluminum frame and is available with 1/2" (12.7 mm) or 5/8" (15.9 mm) inlaid drywall and two latches.

Both an outer and an inner frame assembly consists of high grade aluminum which is bonded with a special welding process.

For sizes 12" x 12" (305 mm x 305 mm) and up the access panels are equipped with a safety system to prevent accidental opening. This safety system must be reattached if the hatch is removed.

The reveal of 1/16 of an inch (1.59 mm) is visible between the outer frame and door hatch. The concealed snap locks open the access panel when pressure is applied to the spring loaded latch side .

This access panel is designed with a double door to create a large clear span opening .

ADVANTAGES

- Superior engineering & innovative design.
- Fast delivery.
- Quick and easy installation.
- Solid aluminum frame.
- Flush installation in ceilings and walls
- Available in moisture / mildew resistant green board and cement board.
