SUBMITTAL/TECHNICAL DATA SHEET

SKU: **BA-F2-FRAME**

REMOVABLE FRAME ONLY ACCESS PANEL

DESCRIPTIONS

Our System F2 removable access panel consists of a welded high grade aluminum outer and inner frame than is bonded together with a special welding process. This version of the System F2 includes the frame only and does not include a drywall insert.

For easy opening and closing it comes standard with pressure sensitive touch latches. For all access door sizes over 12" (305mm) our panels are equipped with a safety-system to prevent accidental openings, this safety system must be re-secured after each use.

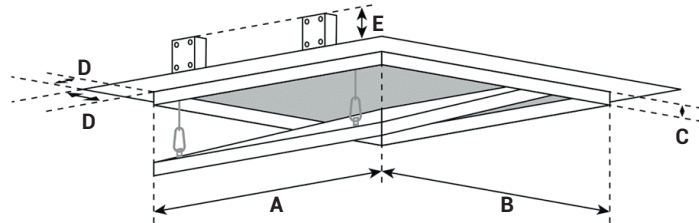

Once installed and finished the panel is virtually invisible as the frame, latch and hinges are concealed from the inside, and only a reveal of 1/16" (1.59mm) is visible between the frame and the access door.

FEATURES

- Frame Only
- Non-Removable
- Non-Rated
- Install inlay of your choice in either 1/2" or 5/8"
