ISOMETRIC VIEW

NOTES:

1. The Bilco LadderUP safety post is furnished completely assembled ready to mount on rear of ladder with clamp brackets on climbing side. Ladder must be structurally sound and securely anchored.
2. On hollow round rung ladders insert solid round bar (same length as rung) into the top two rungs to provide additional strength and prevent crushing of the rung when the LadderUP is fastened.
3. Adjustable mounting fits ladders with rung spacing up to about 14" (355mm) center to center. 4. Clamp bracket may be reversed to accommodate rung sizes of 3/4" (19mm) to 1 1/4" (32mm) with standard 2" (51mm) bolts furnished. Larger rungs will require longer bolts.

ROOF SCUTTLE NOT INCLUDED
