SUBMITTAL/TECHNICAL DATA SHEET

APPLICATION

The BA-WBAP Metal Access Door Recessed For Plaster is a precision door that provides a virtually concealed installation, keeping acoustical surfaces intact while contributing to sound control and better appearance. Door panels are recessed to receive plaster up to 5/8" thick.

Plaster covering the door finishes flush with the surrounding field, leaving only the narrow frame edges exposed. The metal sides of the recessed door panel prevent damage to the edges of the plaster. This door operates on a continuous stainless steel piano hinge, located at the outside edge so that the door may be opened fully to 180 degrees.

OPTIONAL FEATURES

- Medium barrel cylinder lock with key (code 151) - (At extra cost)

SPECIFICATIONS

DOOR: 16 ga. cold rolled steel. Door is recessed 5/8" and lined with expanded metal lath

BOX RETURN FRAME: 16 ga. steel with 24 ga. plaster mesh galvanized casing bead and expanded metal lath surrounding door

HINGE: Full length piano hinge opens 180°, will be placed on long side of door unless otherwise requested

LATCH: Flush, stainless steel cam operated with screwdriver

FINISH: White powder coat paintable finish

SKU: **BA-WBAP**
